Eastern Corridor Study

The Eastern Corridor Study started in 2017 to identify where Rapid Transit should go between Downtown and eastern Winnipeg, how it should look, and what replacement options for the Louise Bridge might look like.

We are now in the final stages of the study focusing on Point Douglas and Elmwood neighbourhoods.

We want your feedback on the design concept for the Eastern Corridor between Main Street and Watt Street, including the Louise Bridge.

Join us at an outdoor, family-friendly event. Refreshments and snacks will be provided.

June 27, 2022 | Drop in between 4 p.m. and 7 p.m.
📍 Sutherland Ave. & Gomez St.

In case of heavy rain, event will be held June 28, 2022

Take the online survey by
July 15, 2022.
